

The Purpose

The purpose of the CyberFair competition is to:

- provide an opportunity to engage the community and schools in an educational activity that contributes to a heightened mutual awareness and understanding of their community history, culture, and other issues.
- foster positive and productive interaction and collaboration among students and local community groups.
- encourage youth to connect the knowledge they learn in school to real world applications;
- integrate current education subjects such as English Language, Information Technology, Social Studies, Science, Music, Art and Character Education, among others.
